## SPRAY INDICATOR COLORANT

AN EASY TO USE, WATER-SOLUBLE DELIVERY METHOD FOR ELITE COLORANTS, AN ULTRA-PURE GRANULAR TECHNOLOGY

- » Ultra-high strength, 90% + pure dye, up to 3x stronger than any powder
- » Water soluble bags dissolve and release granules in less than 2 minutes
- » No added sulfates or dispersing aids, lower net cost than competitive powders
- » Lighter weight than liquids or powders means reduced freight costs
- » Custom-weighted to meet specific pond and pattern indicator needs
- » Non-toxic, made in the USA with food-quality dyes
- » Ideal for use in natural or manmade ponds, lakes, golf courses, reflection pools, farm ponds, fish hatcheries, and aquascapes

- » **FORMULATION:** Water Soluble Bags (WSBs) and Pourable Dry Granular
- » **SIZES:** 20 x 2 oz plastic tubs | 10 x 2 oz plastic tubs  
1.1 lb jug x 12 per case | 4.4 lb jug x 4 per case
- » **SUGGESTED USAGE RATES FOR USE AS SPRAY PATTERN INDICATOR:**
  - » 1-2 ounces per 50 gallon tank
  - » For deeper or higher visual performance, add granules as needed
  - » Taller grass may require higher usage rates
