DETAIL™ Herbicide

Detail Herbicide for Quick Burndown and Resistance Weed Management in Non-Crop Sites

Detail™ herbicide is a new, versatile, rapid kill / burndown and resistant weed management herbicide for industrial bareground sites, utility rights-of-way and selective weeding areas. Detail effectively controls broadleaf weeds that have developed a resistance to other commonly used herbicides, including glyphosate, ALS and phenoxy herbicides. Detail does not control grassy weeds. Detail is an excellent tank-mix partner that provides rapid kill and control of many annual broadleaf weeds.

Advantages of Detail herbicide
- New mode of action for resistant weeds
- Excellent tank-mix compatibility with Frequency®, glyphosate, Arsenal®, Plateau®, and many other herbicides
- Faster brownout and rapid kill of difficult to control weeds
- Postemergent broadleaf weed control with short residual
- Low use rates of 1 to 2 oz/A in combination with glyphosate
- Can be used as a dicamba substitute

Difficult Broadleaf Weeds Controlled
- Russian thistle
- Kochia
- Marestail
- Common and giant ragweed
- Common sunflower
- Lambsquarter
- Leafy spurge
- Morningglory
- Pigweed
- Waterhemp

Use Sites: Bareground industrial sites, roadsides, railroads and rights-of-way

1 to 2 oz/A or 0.25% v/v for spot treatments or backpack applications in conjunction with glyphosate

Formulation: Liquid (Suspension concentrate)

Packaging: 2x1 gallon

Active Ingredient: Saflufenacil

Chemical family: Pyrimidinedione

Mode of Action: Protoporphyrinogen-oxidase Inhibitor. Root & Shoot absorbed

Signal Word: CAUTION

REI: For non-cropland application, do not enter treated areas without protective clothing and until sprays have dried

PPE: Long-sleeved shirt & pants: chemical resistant gloves; shoes plus socks; protective eyewear
Tank-Mix Options
Detail should be tank-mixed with other products to enhance burndown and improve the control spectrum. Suggested tank-mix options include but are not limited to: (recommendations are listed at per acre rates)

1-2 oz/A Detail + 8 oz. Frequency® herbicide
1-2 oz/A Detail + 32-64 oz. glyphosate
1-2 oz/A Detail + 5 oz. Esplanade®
1-2 oz/A Detail + 1-3 qts. Arsenal® or Arsenal® PowerLine™
1-2 oz/A Detail + 4-6 oz. Plateau® herbicide
1-2 oz/A Detail + 3 oz. Oust® herbicide

Note: (1) When using 1 oz/A of Detail always use Glyphosate (2) Always use 1% MSO with Detail (3) 2-4 oz/A for weeds up to 6 inches, 4-6 oz/A for weeds 6 inches or taller.

Detail has also performed well in testing with the following herbicides: Diuron, Portfolio®, Payload®, Streamline®, Perspective® and Sahara.

Vegetation Control (bareground, roadside, right-of-way)
